## EXECUTIVE SUMMARY

This document accompanies the software deliverable:  
PC2/D16: "XCEL/XCDL extended with layout implication handling". We hereby confirm, that the XCL layout processor has been integrated within the eXtractor and is supported by the comperator and the XCL Ontology. For a detailed description of the software please see: PC4/D13 and also as book-version of all XCL-related efforts: [http://planetarium.hki.uni-koeln.de/planets\\_cms/deliverables/xclsuite](http://planetarium.hki.uni-koeln.de/planets_cms/deliverables/xclsuite). The corresponding software will be available from [http://planetarium.hki.uni-koeln.de/planets\\_cms/extractor#download](http://planetarium.hki.uni-koeln.de/planets_cms/extractor#download) at the end of the PLANETS project.
